

Members of the UK-PPN

- Aberystwyth – The National Plant Phenomics Centre
- Nottingham – root biology including automated imaging CT scanning, computer vision
- Sheffield – eco-physiology, growth rooms
- Rothamsted – crop biology, long term experiments

Facilities at IBERS, Aberystwyth

National Plant Phenomics Centre
Imaging facilities:

RGB (biomass)

Root NIR and VIS

Laser

Thermal IR (stomata function)

NIR (water content)

Facilities at IBERS, Aberystwyth

Other IBERS facilities:

Nutrient flow

UAV field phenotyping

Photo-physiology

Molecular analysis
